

Custom Data Processing, Inc. Successfully Completes SOC 1 Type 2 Examination, SOC 2 Type 2 Examination, and HIPAA Security Compliance Assessment

Frankfort, KY – January 13, 2021 – [Custom Data Processing, Inc.](#) (CDP) a provider of electronic health solutions to federal, state, and local health organizations today announced the successful completion of their 2020 System and Organizational Controls (SOC) 1[®] Type 2 examination, System and Organizational Controls (SOC) 2[®] Type 2 examination, and HIPAA security compliance assessment. These achievements reflect their organization’s commitment to data security and privacy, while giving them a competitive edge in their industry.

CDP has been compliant since the company's inception in 1979 and continues to keep up to date with industry standards. “As audit standards have evolved throughout the years, more audits have been added,” said Chief Security Officer David Sewell. “We are unique in that we write, host, provide, and support several different systems and applications, which means multiple audits are necessary.”

With the completion of the SOC 1 Type 2 examination, SOC 2 Type 2 examination and HIPAA assessment as part of a single streamlined engagement covering all its entities globally, CDP has created a cohesive security posture across all its operations, allowing the company to make more informed decisions about how best to protect their clients and their customers’ information.

The efforts were completed by the professional and independent third-party audit firm, [360 Advanced, Inc.](#) By integrating each of their examinations and assessments into a single, consolidated engagement, CDP was able to reduce the number of resources that were required for their compliance initiative.

About Custom Data Processing, Inc.

Custom Data Processing, Inc. (CDP) has been providing electronic health solutions to federal, state and local health organizations since 1979. CDP’s highly agile, custom, software solutions, built around core system components, are continuously enhanced based on industry trends and client feedback. These solutions have been implemented in more than a thousand locations throughout the United States. CDP has three separate offerings for WIC programs, including management information solutions (MIS), electronic benefits processing (WIC Direct) and a data warehouse tool (Data Direct). Additional offerings include an environmental health application, electronic health records, and networking services. For more information about CDP, visit www.cdpehs.com. Follow CDP on Twitter @CDPEHS.
