

## Entry Level .NET Developer

CDP is searching for an entry-level **.NET Developer** to develop their world class software solutions. Our company develops software for state and federal government health agencies. Most of our projects employ agile development methodologies (others employ a hybrid) which result in a unique, fun, and flexible team environment while providing an opportunity for our employees to learn and advance their professional development.

### Job Description

Looking for an entry-level developer candidate to join our developer mentorship program. The mentorship program will last around six months. During the first two months you will work on an individual project with one of Sr. Developers serving as a mentor. The mentor will help work with you to identify gaps and areas of improvement. The middle two months, you will shadow developers on some of our existing teams to learn the CDP projects, teams and our development methodologies. In the final two months, you will be assigned to a team where you will work with Sr. developers doing pair programming, code review, developer testing and completing development tasks on your own.

### Required:

- Bachelor's Degree in Computer Science or completion of a .NET bootcamp.
- Excellent communications skills
- Experience coding in a .NET Language (C#/VB.NET)
- Experience with the .NET Framework
- Applicant must be authorized to work in the United States on a full-time basis for any employer. No sponsorship is available

### Preferred:

- Knowledge of Agile Development Methodologies (Scrum, Kanban, etc.)
- Experience with writing Queries and Stored Procedures in SQL Server
- Experience with Team Foundation Services or Git

### Skills

- Willingness to learn and improve skillset
- Detail-oriented
- Ability to follow the directions of team lead/mentor
- Ability produce efficient, clean and well-commented code
- Excellent written and verbal communication skills; must be able to present and effectively explain technical information
- Work and collaborate with a talented team in an agile environment

### Responsibilities

- The selected applicant will be responsible for the development and on-going maintenance of web-based data-driven applications.
- Development of custom software solutions that meet the requirements of the end users
- Maintenance and support of existing application systems
- Integration of third-party software applications

Positions available immediately in either Romeoville, Illinois, Frankfort, Kentucky with no relocation assistance available. Applicant must be authorized to work in the United States on a fulltime basis for any employer.

Travel between CDP offices and to client locations will be required periodically. CDP offers very competitive benefits including employee paid insurance, 401k match, profit sharing and much more.

## About Our Culture

At our core, we value our relationships, both internally and externally. This means we respect everyone's contributions. Our staff and customers have a seat at the table. We listen, we comment, and we decide our way forward based on what's best for all. Because we are a private company, we don't have public shareholders to report to. We don't have quarterly or annual financial targets to meet. Our relationships are paramount because they determine our long-term success. *When everyone feels empowered, everyone succeeds.*

It is the policy of Custom Data Processing, Inc. to assure that applicants are considered and that employees are treated fairly during their employment, without regard to race, color, religion, age, physical or mental disability, sex, marital status, ancestry, national origin, veteran's status, citizenship, pregnancy, sexual orientation, other protected activities, or any other characteristic protected by federal, state, or local law. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; wages or other forms of compensation; selection for training, including apprenticeship, pre-apprenticeship, and/or on the job training; and ensuring and maintaining a work environment free of harassment, intimidation, and coercion at all sites and in all facilities at which employees are assigned to work.
