Quality Assurance Engineer

CDP, Inc. is a premier provider of data management systems and services for the public health community including the Special Supplement Program for Women, Infant, and Children (WIC). CDP is searching for an experienced **Quality Assurance Professionals** to test their world class software solutions. Our company develops software for state and federal government health agencies. Most of our projects employ agile development methodologies (others employ a hybrid) which result in a unique, fun, and flexible team environment while providing an opportunity for our employees to learn and advance their professional development.

Responsibilities:

- As a Quality Assurance Engineer, you will be responsible for designing and executing both manual and automated test scenarios for various web-based health care systems to ensure that the deliverables meet business requirements and company quality goals.
- In this role, you will actively participate in development planning meetings, prepare, and execute test scenarios, document results, report deficiencies and track code defects to closure.

Minimum Qualifications:

- 3 – 5 years of experience in a software test engineering role.
- Experience developing test plans and executing test scenarios.
- Experience with API testing.
- Proficient with SOAPUI, Postman, or similar API testing tools
- Familiarity with Microsoft Visual Studio, Azure DevOps, test Manager, or similar software suites.
- Understanding of the Software Development Life Cycle, methodologies, and testing techniques.
- Basica understanding of SQL/Oracle databases, including the ability to write, select, and join queries.

Preferred Skills:

- Strong analytical, troubleshooting, and problem solving skills.
- Experience testing web-based applications.
- Excellent written and verbal communication skills.
- Ability to work independently and in a team-oriented environment.
- Proficiency with MS Office suite or similar desktop applications.
- Adaptability to fast paced and changing environments.

Plus:

- Knowledge of Women, Infants, and Children (WIC) or Health Care Programs and Systems.
- Experience testing point-of-sale systems.

CDP, Inc. offers a competitive salary, a comprehensive benefits package, and opportunities for growth and advancement within the company. We encourage you to apply today via our website.

About Our Culture

At our core, we value our relationships, both internally and externally. This means we respect everyone's contributions. Our staff and customers have a seat at the table. We listen, we comment, and we decide our way forward based on what is best for all. Because we are a private company, we do not have public shareholders to report to. We do not have quarterly or annual financial targets to meet. Our relationships are paramount because they determine our long-term success. *When everyone feels empowered, everyone succeeds.*

It is the policy of Custom Data Processing, Inc. to assure that applicants are considered and that employees are treated fairly during their employment, without regard to race, color, religion, age, physical or mental disability, sex, marital status, ancestry, national origin, veteran's status, citizenship, pregnancy, sexual orientation, other protected activities, or any other characteristic protected by federal, state, or local law. Such action shall include, but not be limited to the following: employment, promotion, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; wages or other forms of compensation; selection for training, including apprenticeship, pre-apprenticeship, and/or on the job training; and ensuring and maintaining a work environment free of harassment, intimidation, and coercion at all sites and in all facilities at which employees are assigned to work.
